DESCRIPTORS	Elementary Secondary Education; *Environmental Education; *Outdoor Education; *Program Descriptions; Resident Camp Programs; *Residential Programs; *Science Education; Science Instruction; *Science Programs
IDENTIFIERS	*California

ABSTRACT

This document is a directory of residential outdoor and environmental education programs in California. For the purposes of the directory, a residential outdoor/residential education program is defined as one which is in operation for at least three days and two nights; the curricular emphasis is on natural science instruction in an outdoor setting for school children. Section I provides a map and map index locating the programs. Section II (which comprises the major portion of the directory) provides surveys of the programs, which are arranged alphabetically by 32 California counties. Major cateogries of information provided include: sponsoring agency; on-site facility; sessions; participants; funding; program description (including goals and activities, programs, and experiences provided to meet the goals); positions; and staff positions. Section III (an appendix) lists: programs in alphabetical order by program sponsor, program titles, on-site program directors, program administrators, sponsor-owned sites, and lessor-owned sites; privately-sponsored, county-sponsored, and district-sponsored programs; programs offering 3-day, 4-day or 5-day sessions; program staffing; program funding sources; programs accredited by the Residential Outdoor/Environmental Education Program; programs listed by County Department of Education areas; programs listed chronologically; program enrollments by grade level; additional residential outdoor/environmental education programs in California; and a blank survey form. RE: DIRECTORY OF RESIDENTIAL OUTDOOR/ENVIRONMENTAL EDUCATION PROGRAMS IN CALIFORNIA

The Orange County Department of Education has received a grant from the State Department of Education Environmental/Energy Grant Program. These funds were used to compile this directory of residential outdoor/environmental education programs in California.

The directory will provide:

- a valuable and reliable source of information for outdoor/environmental education administrators.
- information that will assist classroom teachers and administrators in identifying outdoor/environmental education opportunities available in their area.
- an effective job search tool for university graduates and others seeking positions in the field of outdoor/environmental education.
- a means to identify existing residential outdoor/environmental education programs and the need for program development in particular areas of California.
- program and staffing information which will assist outdoor/environmental education administrators in improving the standards of residential outdoor/environmental education programs throughout California.

For the purpose of the directory, a residential outdoor/environmental education program is defined as one which is in operation for at least three days and two nights. The curricular emphasis shall be upon natural science instruction in an outdoor setting for school children.

(Please see reverse)

ORANGE COUNTY BOARD OF EDUCATION

FRANCIS X. HOFFMAN DEAN McCORMICK SHEILA MEYERS FRANCES MURPHY ELIZABETH PARKER

The directory was compiled from a state-wide survey begun in September 1983. A state-wide advisory board examined and critiqued a preliminary survey form. The grant committee revised the survey form and mailed seventy copies to contact people in residential outdoor/environmental education programs, state agencies, and county departments of education. The surveys were then processed and compiled. Programs which did not respond were contacted by telephone. The surveys were reviewed and revised for consistency and accuracy. The directory reflects information provided by program directors. Although every attempt was made to verify the information, the authors take no responsibility for accuracy.

Typed surveys were compiled and a map was included to indicate locations of programs by county throughout the state. A computer analysis of data was compiled and included in the appendix. The directories were mailed to residential outdoor/environmental education programs, county departments of education, and environmental education groups in California. Directories were also mailed nationwide to coordinators of environmental education at state educational agencies and colleges with outdoor/environmental education programs.

The Grant Committee believes that the directory will serve outdoor/environmental education program administrators and staff, classroom teachers, university faculty and graduates, and students for years to come. The directory is a tool which can be utilized to promote communication, resource sharing, and cooperation among outdoor schools and professional educators.

The Grant Committee:

- would appreciate receiving an evaluation form regarding the completed directory. Please return the enclosed evaluation form promptly.
- welcomes updates, changes, and/or additions to the directory. Please remove blank survey from the back of the directory and return.
- will sell additional copies of the directory at a nominal fee to cover printing and mailing costs after the original supply is exhausted.
- will provide updated directory information if funding is available.

Evaluations, updates, requests for additional directories, and correspondence should be mailed to:

Grade levels served (circle): K 1 2 3 (4) (5) (6) (7) (8) (9) (10) (11) (12)
other _____

Average attendance (per session) 80

Approximate attendance 1983-84 5,400

Special populations account for _____ % of attendance

Describe special populations served Disadvantaged areas, day trips, and Project TOTE

Geographic area served 704 square miles of the Los Angeles Unified School District

FUNDING

Program is typically funded by: Parents 0 % School District 100 % County Department of Education 0 % State 0 % Federal 0 % Private 0 % Other _____

Further Explanation The school district provides transporation, personnel, sites, maintenance, and administration. The students pay a food fee only, if they are on the national school lunch program.

PROGRAM DESCRIPTION

Goals Firsthand educational experiences are the chief aim of the outdoor school. Each experience is correlated and integrated with the regular in school curriculum to enable the student to see the relationships between real life situations and the work in the classroom. The areas of study include environmental education, human relations, and basic learning skills of the elementary classroom.

Describe activities/programs/experiences provided to meet goals The program is characterized by discovery, exploration, and observation in a natural environment which provides meaningful experiences not readily available in the classroom. Areas of study include geology, meteorology, astronomy, local flora and fauna,and a 24 hour group living program centered around positive human relations skills.

Program is typically funded by: Parents 75 % School District 0 % County Department of Education 0 % State 0 % Federal 0 % Private 0 % Other Subsidy from LBCASC 25%

Further Explanation The Lutheran Bible Camp Association of Southern California (LBCASC) is an association of 160 Lutheran congregations of Southern California.

PROGRAM DESCRIPTION

Goals The El Camino Pines Field Center exists as an aid to curriculum enrichment for lutheran, parochial, public schools, and church education groups. Its purpose is to create an awareness in students and teachers of the natural environments of the earth and of themselves as caretakers of these environments.

Describe activities/programs/experiences provided to meet goals We work in cooperation with schools to design a program that most enhances classroom curriculum and best meets the needs of the students. There are over 30 curriculum pieces offered in four different areas of study: outdoor pursuits, arts and humanities, natural sciences, and social sciences. Sessions are heavily oriented to hands-on experiential activities, and reflect central themes of caretaking and world community.

FUNDING

Program is typically funded by: Parents 40 % School District 60 % County Department of Education 0 % State 0 % Federal 0 % Private 0 % Other _____

Further Explanation Each school/group seems to have their own way of funding their trips. In most cases, the cost is shared by parents and the school district.

PROGRAM DESCRIPTION

Goals Promote educational uses of Point Reyes by providing outdoor teaching facility. Stimulate environmental awareness and sense of human's role in total environment by providing overnight living experience. Encourage environmental education throughout ongoing curriculum by having teachers develop and carry out programs.

Describe activities/programs/experiences provided to meet goals The CMEC in Point Reyes National Seashore is a living and learning facility. As an outdoor study site, the center is an overnight camp and offers visiting groups a scheme for participatory environmental living. Teachers are responsible for all teaching. Camp Manager acts as a resource person. We offer outdoor education workshops for teachers. Park service personnel offer limited programs to groups.

FUNDING

Program is typically funded by: Parents 85 % School District 0 % County Department of Education 0 % State 0 % Federal 0 % Private 0 % Other 15%

Further Explanation Many school groups have large fund raising campaigns for their trip to the Yosemite Insititute. Also, we do have a small scholarship fund for individuals that really need assistance.

PROGRAM DESCRIPTION

Goals Yosemite Campus stresses student responsibility and intellectual growth, as well as fun. Although individuals are encouraged to pull together as a group, adequate time is available for quiet, solitary reflection.

Describe activities/programs/experiences provided to meet goals The Yosemite Institute program is primarily a program of field study. Day hikes focus upon a central theme. Group and individual activities and "challenges" compliment field observations. Challenging hikes to the high places of Yosemite serve to build bonds among group members.

PROGRAM DESCRIPTION

Goals Through group investigation of the natural environment, the individual becomes directly involved in the learning process. As knowledge increases so does the appreciation of our feeling of responsibility for the natural world.

Describe activities/programs/experiences provided to meet goals Students are placed into small living groups that form a trail group consisting of ten boys and ten girls each. This group is led through various nature activities and simulation games reinforcing natural science concepts.

FUNDING

Program is typically funded by: Parents 100 % School District 0 % County Department of Education 0 % State 0 % Federal 0 % Private 0 % Other _____

Further Explanation We are not associated with any district or county office of education so parents are responsible for all fees. Many schools do fund raising to assist the students.

PROGRAM DESCRIPTION

Goals To generate and encourage positive feelings of stewardship for the earth. To familiarize students with basic environmental and ecological concepts through direct interaction with the environment. To promote social development through interaction with peers, teachers, and camp staff.

Describe activities/programs/experiences provided to meet goals Nature hikes focusing on ecology, biology, zoology, and geology. Evening activities involving night awareness and astronomy. Natural resource utilization through mealtime activities (food, water, and energy). Social development and growth encouraged through group living arrangements, cabin and "tribal" group interaction. Other social growth activities include: campfires, and interaction with staff, teachers, and peers.

PROGRAM DESCRIPTION

Goals To provide a program in environmental and outdoor education which will reach as many students as possible. Help participants develop a better understanding of natural science, conservation, other people, and the natural environment.

Describe activities/programs/experiences provided to meet goals The hillside trail provides great variety of hiking. Instruction focuses on animals, plant life, and concepts as plant succession and adaptations. Visits to the pond and beach help students learn about plants and animals in different ecosystems. Living with other children and the conservation trail teach the students how to cooperate.

PROGRAM DESCRIPTION

Goals To develop in each child an environmental ethic based upon a cooperative effort among all people to maintain a healthy environment, a respect for life, and a sense of environmental responsibility.

Describe activities/programs/experiences provided to meet goals The academic core of the environmental education program consists of 4 units: birds and beasts hike (interdependence), elfin forest hike (adaptations), off and away hike (geology), and Chumash hike (human lifestyle and impact). The night hike teaches about nocturnal animals and astronomy.

FUNDING

Program is typically funded by: Parents 50 % School District 12 % County Department of Education 25 % State 3 % Federal 0 % Private 0 % Other Fund raising 10%

Further Explanation These are broad estimates. The county funding is from Forest Reserve funds.

PROGRAM DESCRIPTION

Goals To teach students environmental education, social living skills, and self awarenss. To assist classroom teachers to become comfortable about integrating environmental education into their regular teaching.

Describe activities/programs/experiences provided to meet goals Environmental education concepts are taught (balance of nature, cycles and recycling, change, adaptation, observation, appreciation, and ecological responsibility). Most of the disciplines (such as science, social science, creative writing, drama, music, physical education, math, etc), are taught through hands-on, student discovery methods of teaching. Main theme throughout the week is cooperation.

ADDITIONAL RESIDENTIAL OUTDOOR/ENVIRONMENTAL EDUCATION PROGRAMS IN CALIFORNIA

On the following pages are a list of programs, districts, sites, and privately sponsored organizations which may possibly operate a residential outdoor/environmental education program. Some of these programs were referrals by other administrators. The directors of several programs received surveys but did not respond. These programs are listed in order by county. It is not known by the authors whether the following information is accurate.

BEST COPY AVAILABLE

ADDITIONAL RESIDENTIAL OUTDOOR/ENVIRONMENTAL EDUCATION PROGRAMS IN CALIFORNIA

ALAMEDA COUNTY

Murray School District
Lydiksen Elementary School
7700 Highland Oaks Drive
Pleasanton, CA 94566
(415) 846-6723

Vince Anacierio
Principal

AMADOR COUNTY

Amador County Schools participate with Marin and Stanislaus County programs

COLUSA COUNTY

Clousa County Schools participate with Sutter County at Woodleaf

CONTRA COSTA COUNTY

Mt. Diablo Unified Sch. Dist.
1936 Carlotta Drive
Concord, CA 94521
(415) 682-8000 Ext. 350

Dick Allen
Director of Elementary Educ.

San Ramon Valley Unif. Sch. Dist.
699 Old Orchard Dr.
Danville, CA 94562
(415) 837-1511

Ronald Loos
Principal, Stone Valley Elem.
(Participate with with Marin Co. at Redwood Glen)

EL DORADO COUNTY

Buckeye School District
4560 Buckeye Road
Box 547
Shingle Springs, CA 95682
(916) 677-2261

Lyle Graf
Superintendent

El Dorado County Schools
337 Placerville Drive
Placerville, CA 95667
(916) 622-7130

Meridel Barden
Consultant in Education

Gold Oak Union Elem. Sch. Dist.
3171 Pleasant Valley Road
Placerville, CA 95667
(916) 622-9144

Gerold Merker, Science Teacher
Rusty Vardy, 6th Grade Teacher

Rescue School
3880 Green Valley Road
Rescue, CA 95672
(916) 677-2720

Nelda Gulling
Outdoor Education Program
(Participate with Mendocino Co. at Pacific Environmental Educ. Ctr.)

FRESNO COUNTY

Fresno Co. Supt. of Sch.
2314 Mariposa Street
Fresno, CA 93721
(209) 488 -3337

Deborah Buchanan
(Participate with Fresno Co. at Regional Learning Center)

KERN COUNTY

Camp El Camino Pines
Star Route Box 995
Frazier Park, CA 93225
(805) 245-3519

Lisa Stoen
Director

KINGS COUNTY

Kings Co. Supt. of Sch.
Government Center
1144 Lacey Blvd.
Hanford, CA 93230
(209) 584-1441

Mr. Painter
Director of Outdoor Educ.
(Participate with Tulare Co. at Clemmie Gill School of Science and Conservation and Merced Co. at Camp Green Meadows)

LOS ANGELES COUNTY

Calamigos Outdoor Env. Educ. Center
